

## *Message from the President*

*Susan Lynch*

*Dear Homeowners,*

*It's April and spring has officially arrived. I am noticing many more residents out and about enjoying the weather by jogging, bicycling and taking children and "furry family members" for walks (myself included)*

*This is a good time for a reminder that the posted speed is 25 mph in most of Windover Farms. There have been complaints of "young adults" exceeding this and driving recklessly through the development almost as if mimicking "hot pursuit" that one would see on television. Driving a car is fun and exciting, especially when you first start out. It marks a teenager's start of independence and is a rite of passage into adulthood. We all drive a little fast at times. Today's world is "go, go, go"... too many things to do and not enough time to do it in. Those of us that have been driving for 10, 20, 30 years or even longer have witnessed or may have been involved in accidents and know the devastation they can leave behind. Please take some time to speak with the less experienced drivers in your household about safety and responsibility (I remind my oldest every time he returns for visits from college). What seems like fun now has the potential for consequences that will remain with them forever.*

*"Kudos" to everyone that is doing their spring updates. We are seeing many applications coming to the A.R.C for review. Keep in mind all of the members are volunteers who maintain Full Time jobs just like many of the residents in the community. They arrive at 7pm to review and discuss the applications amongst themselves. Residents that submit applications are encouraged to attend the meeting promptly at 7:30. The Committee Members will remain at the office until 7:40, but if residents are not in attendance at that time they will end the meeting and return to their families.*

*Many of you may have noticed that the landscaping has not begun at the front entrances as planned. We have experienced some "hiccups" with the irrigation system and some leaks that need to be located and repaired before we can proceed. No one wants to see the project completed and then have the new plants die due to improper irrigation. I am hopeful that it will begin this month.*

*Please remember that the Annual Yard Sale will take place on Saturday April 11, 2015. This is a time to "spruce up" the inside of your house and turn your "clutter" into some cash.*

*That is all I have at this time. Be safe and enjoy the weather*
