

WINDOVER FARMS OF MELBOURNE

Homeowners Association, Inc.

Message from the President, Susan Lynch

November is upon us and we welcomed in fall a little over a month ago. The weather has been crazy with torrential rains at times, flash lightning storms and strong gusty winds. Hopefully it will come to an end over the next couple of weeks. I am looking forward to being able to start getting some exercise again and not having to worry about getting drenched midway through my evening walk.

Weather permitting; the tennis court resurfacing should begin this month. Please remember that no one should enter the courts for the duration of the project once it begins. It should be completed in about 2 weeks from the time it is started....and all of you avid tennis players out there will be very happy once it is brought back to its former glory and all of the cracks running through it are no longer there.

The annual Windover Farms Budget meeting will be held on Wednesday, November 11, 2015. Good news....the proposed yearly budget for 2016 shows no annual dues increase for homeowners. Every homeowner is encouraged and welcome to attend to hear where money is being spent and ask any questions they may have regarding the costs for operating and maintaining our common areas.

One other newsworthy item is the upcoming Windover Farms annual election. Every year at least 2 seats become vacant for a position on The Board of Directors. It is a 2 year term where you are directly involved in helping to make decisions about issues that come up within the community. If you are interested in the "happenings in our community" and feel that you want to get involved please submit a Bio to the office by November 14 so that you can be added to the ballot and name placed in the December newsletter.

We all get pulled in by the hustle that is life. Many of us have children and as they get older so do their demands on you as parents. Going in the store for routine shopping has been an eye opener the last couple of weeks. I never liked seeing Christmas stuff out before Thanksgiving....this year it started in October. Holidays seem to get more commercialized as the years go on. One thing to keep in mind the best gift you can give anyone is the quality time you can spend with them. Your kids may not agree with me now, but as they get older, grow up and move on to start families of their own....they won't remember the "cool gifts" they received at Christmas. However, they will remember and cherish the fun times spent with their family, even if it may seem like a chore to them now.

That's all I have for this month. Be safe and try to enjoy your family time as the craziness of the holiday season begins.
